

Norwegian Ministry of Defence congratulates NAVANTIA for the successful execution of audit contract for F-310 frigates

20th. September 2023.- The Norwegian Ministry of Defence's Directorate of Material Acquisition (NDMA) has just congratulated Navantia for the excellent execution of the contract for the configuration audit of the Fridtjof Nansen class frigates (F-310), concluded this year 2023.

This work, contracted in January 2022, consisted of carrying out the corresponding configuration audits of the Nansen frigates in order to integrate into the design documentation all the modifications introduced by NDMA in the frigates since they were delivered. This work, carried out under full coordination between Navantia and NDMA, allows to facilitate the start of the modernisation phase of the frigates and for which Navantia is in permanent contact with NDMA.

This congratulation from NDMA joins the current strengthening of the relationship between the Norwegian Ministry of Defence and Navantia as evidenced by additional contracts such as the Feasibility Phase of the Modernisation Programme and the Major Modifications (I-Mods) on the Nansen frigates.

About Navantia:

With a history of more than 300 years linked to the construction of ships for the Navy, Navantia is a state-owned and strategic technology company for the defense of Spain. Its areas of specialization range from shipbuilding (surface and submarine), to the design and integration of systems with a high technological content and life cycle support and high value-added services. Additionally, with its brand Navantia Seanergies, it is a global supplier for the development of offshore wind energy and other green energies such as hydrogen. Navantia employs nearly 4,000 people directly in Spain, mainly at its offices in Ferrol and Fene (A Coruña), Puerto Real, San Fernando, Cádiz and Rota (Cádiz), Cartagena (Murcia Region) and Madrid.

Committed to building a safe and sustainable future through technological excellence and industrial collaboration, Navantia has contracts with Governments and companies around the world and ties with universities and technological and academic centers. It contributes to

sustainability and innovation through its daily commitment to people and the planet, with responsible practices from the point of view of labour, the environment and economic and technological development that are viable regionally, nationally and internationally. It is owned 100% by the Sociedad Española de Participaciones Industriales (SEPI), attached to the Ministry of Finance and Public Function of Spain).
